Please stop the 'cease and desist' motion against Uber. Uber is providing an economical, efficient service to the people of S.C. –and should be allowed to continue the service.

Subject: Support of UBER

This email is in support of UBER and it's service to provide us with safe reliable transportation. I rely on UBER in Charleston, and in other cities and states to get me where I need to go safely and timely. They are very timely and very cost-effective. Please remove the "cease and desist" because this is actually one of the better services and businesses provided in SC. Only the state SC would try to get rid of something so positive.

Please let UBER continue to exist and and provide us with awesome transportation.
Would you rather have a bunch of drunk drivers on the road? How would that effect the public?

Sincerely,
Ashleigh Thomas

Subject: Keep UBER in SC

Hi,

I am a South Carolina citizen born and raised in the state. I am writing on behalf of myself and countless other South Carolinians to let you know that we support Uber's operations in South Carolina and are against it's operations being banned.

The Public Service Commission's decision to ban Uber is not much of a public service as it hurts the South Carolina public. Consumers have one less option for choosing timely and affordable transportation. South Carolina citizens who are employed by Uber will be left without jobs. What the decision sounds like is a means for supporting the big taxi companies, with out much regard for the public.

Please reconsider the decision to ban Uber in South Carolina, a right to work state where the government prides itself in not meddling in business.

Thank you

Subject: Uber in South Carolina

I live on Hilton Head and don't expect Uber to reach this market anytime soon, but when I travel I use Uber. Not only are the cars and drivers cleaner and more courteous than the average licensed taxi and driver, I feel much safer - not only because the car is in better mechanical condition but also because there is a computer record of where I got the ride and where the car went after that. I'd rather have my wife or daughter in an Uber car than a taxi if traveling alone.

Public safety and the 21st Century should bring you to reverse your anti-Uber ruling.
